Warranty

✓ **Wi-Fi Compliant (802.11b/g)**

✓ **54Mbps Data Rate at 2.4GHz**

✓ **64/128/256Bit WEP Encryption**

✓ **Plug and Play**

✓ **Windows XP Ready**
   Also supports Windows 98SE, 2000, and Me

Unicom's 802.11g Wireless Card makes wireless networking easy. With its plug-and-play design, you will be up and running with wireless in no time.

Wi-Fi Compliant, Unicom's Wireless PC Card is compatible with all 802.11g and b wireless appliances. It provides all of the features and qualities that your family and home office demand, like 256Bit WEP Encryption for secure data and speeds up to 54Mbps.

Perfect for home, small networks, and anyone on the go. Unicom's Wireless products are ideal for mobile and remote users and situations where a wired installation is either cost prohibitive or difficult to employ.

Don't get tied down by wires again. Go wireless today!

PART NUMBER	DESCRIPTION
WEP-46032G	802.11g Wireless PC Card

Specification

Standard:	IEEE 802.11g
Interface:	32Bit Cardbus
Antenna:	Bi-Antenna Diversity supported
Data Rate:	802.11g (up top 54Mbps)
Freq. Range:	2.412GHz~2.4835GHz
Number of Selectable Channels:	
	USA and Canada, 11 channels
Modulation Technique:	
	Direct Sequence Spread Spectrum (CCK, DQPSK, DBPSK)
	Orthogonal Frequency Division Multiplexing (OFDM)
Security:	64/128/256Bit WEP, WPA
Throughput:	20.3Mbps@54Mbps
Output Power:	12dBm for 802.11g
Warranty:	Lifetime Warranty
